

VERSATILITY, QUALITY AND INNOVATION ARE WHAT MAKES US THE INDUSTRY LEADER

COLD WATER PERFORMANCE

Nilfisk-ALTO High Pressure Washers offer unsurpassed cleaning efficiency and versatility. In more than 120 counties worldwide, powerful Nilfisk-ALTO pressure washing systems are the choice for extraordinary cleaning, handling ease, durability, and field support.

HOT WATER INNOVATIONS

Nilfisk-ALTO offers hot water electric mobile machines for a multitude of applications. Our NEPTUNE series pressure washers also operate at 92% FUEL EFFICIENCY, effectively saving the environment and your money.

Poseidon Series - Cold Water Electric

Model	Part Number	PSI	GPM	Power (ph/V)
Poseidon 2-19X	126134347	1100	2.4	1/115
Poseidon 5-51	301001016	2200	4.5	1/220
Poseidon 7-52 (1150)	301000221	2200	5.0	1/220
Poseidon 7-66 (1280)	301000218	2750	5.5	3 x 220/460

Neptune Series - Hot Water Electric

Neptune 3-20	301001898	1100	2.5	1/115
Neptune 3-30X	301002530	2000	2.8	1/220
Neptune 5-45X	301002365	2200	4.0	1/220
Neptune 7-58X	301001940	2300	5.0	1/220
Neptune 7-66	301001618	3000	5.0	3 x 220/460

EcoPower
Clean Performance

92% FUEL EFFICIENCY

Merging advanced technology with serviceability and environmental responsibility produces cleaner air, greater fuel efficiency and reduced maintenance costs. The NEPTUNE Series EcoPower boiler addresses environmental issues by reducing fuel consumption by up to 30% compared with current conventional technology.

SUPERIOR PUMP TECHNOLOGY

For more than 25 years, the Nilfisk-ALTO **C3 PUMP** has been the leader in the cleaning industry. With four fully ceramic pistons, stainless-steel valves and a brass cylinder head, this pump takes an inlet temperature up to 185°F.

Optimized for additional strength, the **NP5 PUMP** uses only full ceramic plungers, which resist damage by corrosion better than stainless steel and coated-ceramic plungers. The sealing system is made to exacting standards, ensuring top performance.
